SECTION 2.0 SPECIFICATIONS/SCOPE OF SERVICES

The City of Somerville is seeking a Consultant for a full range of design and engineering services for the renovation of Draw Seven Park, located along the banks of the Mystic River in the Assembly Square neighborhood of Somerville. Presently owned by the Massachusetts Department of Conservation and Recreation, they have estimated that the area of the park measures approximately 9 acres.

The objectives of the new design are to most efficiently use the space to accommodate recreation, connect with the existing travel corridors, and respect and enhance the riparian location of the park by providing opportunities for social space. Drawing from previous public engagement processes and an assessment of the city's recreational fields (*See "Resources" section at the end of this SOW*), the designers will continue to engage the community in an in-depth process to fully understand user needs and invite community participation in the design process. Draw Seven Park should incorporate sustainable features, provide a safe and secure environment and provide for much needed recreational opportunities along the banks of the river. It will serve as a premier example of public park design within the City.

The Consultant should be able to assemble a team able to respond to the needs a riparian park, to think creatively about sustainable practices and to fully explore the possibilities for recreational fields, including the possible use of artificial turf, lighting and other measures that extend playing time. The design for Draw Seven Park will be coordinated through City officials and in collaboration with the community and stakeholders. Consulting services are expected to commence in January 2015 with construction plans completed for a bid process June 2015. The Consultant's contract will extend through December 2016.

1.0 Summary

Draw Seven Park is located on the banks of the Mystic River and was given its name by the Draw Seven Railroad Bridge, which once crossed the river here. Located immediately adjacent to the new Assembly MBTA orange line station and east of the growing Assembly Square neighborhood, the park is a terminus for regional bike and walking path networks. In addition to

paths, the site contains a picnic area with a shelter, parking area, and an actively used soccer field. Draw Seven park provides important active and passive recreation for users, but safety is a concern of the community. Other considerations to address include river bank erosion and plantings, accessibility, LED lighting and the need for recreational fields in East Somerville.

The design process consists of three main components: Site Analysis and Schematic Design; Design Development and Construction Documents; and Bid and Negotiation.

1. Site Analysis & Schematic Design involves qualitative and quantitative data gathering from the existing site, previous studies and the historical record; solicitation and recording of public input; and analysis and presentation of results to the City and residents. Schematic Design will draw upon Site Analysis to present (a minimum of 3) appropriate design schemes with alternative elements and cost estimates for community feedback and final selection by a City committee.
2. Design Development and Construction Documents will further develop the design ideas from the public process and transform the design into 100% construction drawings and a detailed **unit-price based construction cost estimate**.
3. Bid and Negotiation consists of working with the City to review and respond to bidder's request for information, until the construction contract is awarded.

The goal of the Draw Seven Park design is for the Consultant to engage in a project that will:

- a) Engage the community in a substantive park design process that will produce a new, imaginative, and enduring design as an example of Somerville's focus on quality materials and excellence in design.
- b) Address the health and recreational needs of the East Somerville community and long-term goals of the City's Shape Up Somerville program, through a design that encourages physical fitness, play and movement.
- c) Analyze and improve ADA access for persons with disabilities, in conjunction with the City's ADA Coordinator.
- d) Provide a design that responds to existing environmental issues and the riparian location of this park by exploring design options for "green" products and practices, including native plantings, permeable surfaces, storm water management and sustainable building practices.
- e) Uphold and embody the City of Somerville's strategic open space goals, including increased health of the tree canopy.
- f) Provide a design that minimizes City of Somerville park maintenance needs.

2.0 Project Site

Draw Seven Park is a unique space in Somerville's newest square located in the rooted, diverse and vibrant East Somerville neighborhood. The location of the park along the Mystic River provides an opportunity to connect residents and visitors to Somerville's waterfront and is a continuation and complement to the new Sylvester Baxter Riverfront Park located northwest of the site. The park is also connected to movement corridors both via public transportation and

regional walking/biking trails. The existing use of the park for sports and recreation is one that past community outreach efforts support and that open space data reveals a need for in East Somerville and the city as a whole. Draw Seven Park provides an opportunity to accommodate both active and passive recreation in a way that connects users with the Mystic River waterfront.

3.0 Public Process

City staff, led by the OSPCD project manager (PM), will work with the Consultant in the development of public meetings and public process.

The public process will involve at least three (3) formal public meetings, but may require additional meetings. Public meetings will be advertised by the PM and will be comprised of a larger group of stakeholders including, but not limited to, residents, businesses, institutions, community groups, abutters and Ward Aldermen. The first public meeting to be held in January of 2015 and will introduce the Consultant to the community, present an analysis of the site and gather information and community feedback on the site. The second meeting will present three schematic design alternatives for review and feedback. The third meeting will be held in March of 2015 to present the final design.

The Consultant will:

- Meet and work with PM a minimum of three (3) working group sessions to present findings relative to existing conditions, best practices in park design, and the development of schematic design alternatives in preparation for and in response to each public meeting.
- Attend and make public presentations at a minimum of three (3) community meetings to be held during weekday evenings. If necessary, additional public/stakeholder meetings may be required. The meetings will be organized and publicized by the PM.

6.1.2 Evaluation Methodology

All responses will be reviewed by an evaluation committee composed of employees of the City. However, the City reserves the right to involve an outside consultant in the selection process. Final selection will be based upon the evaluators' analysis of the information and materials provided by the proposing vendors in their technical submissions compared to both the Quality Requirements & Comparative Evaluation Criteria of the solicitation. Responses that meet the minimum Quality Requirements will then be reviewed for responses to the Comparative Evaluation Criteria. The evaluation committee will assign a rating of Highly Advantageous, Advantageous, Not Advantageous or Unacceptable to the Comparative Evaluation Criteria.

The City will award the contract to the most responsive and responsible Offeror who demonstrates best value to the city, technical and price considered. The Design Development Documents shall be complete and unambiguous and shall comply with all applicable laws, statutes, ordinances, codes, orders, rules, and regulations.

3.3.3. Adjustment to Statement of Probable Construction Cost. The **Design Professional** shall advise the **City** in writing of any adjustments to the Statement of Probable Construction Cost prior to the commencement of the Construction Document Phase. The approved adjustment of the Statement of Probable Construction Cost or the Statement of Probable Construction Cost, if there is no adjustment, shall constitute a fixed limit of Construction Cost as that term is used herein. Such fixed limit, once established, shall be adjusted only by written agreement of the **City** and the **Design Professional**, or as otherwise provided herein.

3.4. CONSTRUCTION DOCUMENT PHASE.

3.4.1. Commencement. The **Design Professional's** responsibility to provide Basic Services for the Construction Document Phase under this Agreement commences with the **City's** acceptance and approval of the Design Development Documents and ends on the date the Bidding and Award Phase commences.

The **Design Professional** will include these forms and documents in its Project Manual. It is the responsibility of the **Design Professional** to ensure that all such documents are included in the final Project Manual. Any costs incurred as a result of the failure of the **Design Professional** to include any such documents will be borne by the **Design Professional** and not charged to the **City**, where such failure is the fault of the **Design Professional**. The **Design Professional** may propose changes to these **City**-generated forms and documents; however, implementation of such changes are subject to the unilateral approval of the **City**. No changes may be made to such documents without the prior written consent of the **City**. The **Design Professional** shall prepare and submit to the **City** for approval the entire Project Manual. The **Design Professional** shall, to the best of his/her ability, immediately inform the **City** if any documents are missing or deficient.

3.4.5. Addenda. All addenda shall be issued by the Contracting Department; however, at the Contracting Department's sole discretion, the **Design Professional** may be called upon to prepare a draft of any such addenda. The **Design Professional** will be responsible for the printing of the Project Manuals unless the **City** instructs the **Design Professional** otherwise. The cost of producing such Project Manuals will be passed onto the **City** at cost. Any changes required to be made to the Construction Documents as a result of errors by the **Design Professional** or persons within its control will be promptly corrected at no cost to the **City**. The **Design Professional** shall make its best efforts to print Project Manuals on paper containing a minimum of twenty percent (20%) post consumer content.

3.4.7. Packaging the Project Manual.. The **Design Professional** will require the printer of the Project Manual to wrap each set of Plans in a brown wrapper, or, if the Plans are small in number, fold each set of Plans and insert one set into each Project Manual.

3.5. BIDDING AND AWARD PHASE.

3.5.1. Commencement. The Bidding and Award Phase commences on the date the Invitation to Bid is first advertised pursuant to M.G.L. c. 149, §44J, or M.G.L. c. 30, §39M, and ends on the date the Construction Phase begins.

3.5.2. Additional Bidders. The **Design Professional** shall assist the **City** in obtaining bids if, in the opinion of the Contracting Department, an insufficient number of persons requested the Project Manual. The **Design Professional** will notify “eligible” and “responsible” persons (as those terms are defined in the M.G.L. c. 149, §44A and referred to in M.G.L. c. 30, §39M) of the Invitation to Bid.

3.5.3. When Lowest Bid Exceeds Total Construction Cost. If the lowest bona fide bid by a Contractor exceeds the total construction cost of the Project as set forth in the approved Statement of Probable Construction Costs by more than ten percent (10%), then upon the request of the **City**, the **Design Professional** will revise the Plans and Specifications in consultation with the **City** to reduce or modify the quality or quantity, or both, of the Work so that the total construction cost of the Project will not exceed the total construction cost set forth in the Statement of Probable Construction Costs by more than ten percent (10%). All revisions pursuant to this paragraph shall be at the **Design Professional’s** sole cost and expense (which cost and expense include, but are not limited to the **Design Professional’s** time, the cost of reprinting the Project Manual, and the cost of re-advertisement of the Project).

3.5.4. Pre-Bid Conferences. The **Design Professional** shall attend all pre-bid conferences.

3.5.5. Investigation of Bidders. The **Design Professional** shall investigate, at minimum, the lowest Bidder. The investigation shall include, but is not limited to, reviewing the files maintained by the Division of Capital Asset Management, or any other governmental agency charged with maintaining such documents related to such Bidder, telephoning or writing owners of the Bidder’s prior projects, telephoning or writing Design Professionals from such prior projects, visiting the sites of such other projects and checking all other appropriate references. The **Design Professional** shall provide the **City** with a detailed letter of approval or disapproval of such Bidder. The letter must include relevant language from the appropriate state laws regarding the eligibility and responsibility of Bidders (i.e., M.G.L. c.149, §44A(1), M.G.L. c. 30, §39M(c), or, if appropriate, M.G.L. c. 29, §29F). If the **Design Professional** disapproves of the lowest Bidder, then the **Design Professional** must investigate the next lowest Bidder in the same manner described above, and continue to investigate each successive low Bidder until a Bidder is approved. For every Bidder investigated, the **Design Professional** must provide the **City** with a detailed letter as described above.

3.5.6. Preparation of Contract. To the extent required, the **Design Professional** shall assist the Contracting Department in the preparation of the construction contract.

3.6. CONSTRUCTION PHASE-- ADMINISTRATION OF THE CONSTRUCTION CONTRACT.

3.6.1. Commencement. The Construction Phase commences with the full execution of the contract for construction and terminates on the date of expiration of all of the guarantees and warranties provided by the Contractor to the **City**.

3.6.2. Change in Design Professional's Duties, Etc. Construction Phase duties, responsibilities, and limitations of authority of the **Design Professional** shall not be extended without written agreement of the **City** and the **Design Professional**. Any restrictions or modifications to the **Design Professional's** duties and responsibilities can be imposed by the **City** without the consent of the **Design Professional**.

3.6.3. Pre-construction Conferences. The **Design Professional** shall attend all pre-construction conferences.

3.6.4. Site Visits. The **Design Professional** shall visit the Site at intervals appropriate to the stage of construction, but no less than once a week, or as otherwise agreed by the **City** and the **Design Professional**, to become familiar with the progress and quality of the Work and to determine with care if the Work is proceeding in accordance with the requirements of the Contract Documents. The **Design Professional** shall cause its engineering and other consultants to make similar Site visits, at such times as may be required for observation of portions of the Work designed and/or specified by them. The **Design Professional** shall not be required to make continuous on-site inspections to check the quality or quantity of the Work. The **Design Professional** shall promptly submit to the **City** a detailed written report subsequent to each on-site visit, which shall include any observation of material deviations by the Contractor or subcontractors from the requirements of the Contract Documents.

3.6.5. Job Meetings. There shall be no less than one job meeting per week. The **Design Professional** shall attend all job meetings. The number of meetings per week will depend on the complexity of the Project at a particular stage, the problems encountered on the Project, or the **City's** request that additional meetings be held. The **Design Professional** shall also be required to be present when governmental authorities having jurisdiction over the Project visit the Site to inspect the Work. The **Design Professional** will exercise good care and diligence in discovering and promptly reporting to the **City**, as well as to the Contractor, any defects or deficiencies in the Work.

3.6.6. Construction Means, Methods, Etc. The **Design Professional** shall not have control over or charge of and shall not be responsible for construction means, methods, techniques, sequences, or procedures, or for safety precautions and programs in connection with the Work. However, the **Design Professional** shall promptly report to the **City** any perceived irregularities.

3.6.7. Contractor's Schedule. Except as otherwise provided in this Agreement, the **Design Professional** shall not be responsible for the Contractor's schedules or failure to carry out the Work in accordance with the Contract Documents, except to the extent that such failure is caused by the **Design Professional**. Except as otherwise provided in this Agreement, the **Design Professional** shall not have control over or charge of acts or omissions of the Contractor, its

Subcontractors, or their agents or employees, or of any other persons performing portions of the Work. However, nothing in this paragraph shall relieve the **Design Professional** of its obligations to the **City** elsewhere in this Agreement. The **Design Professional** shall review all schedules presented by the Contractor and advise the **City** as to the appropriateness of same.

3.6.8. Communications. The **City** and the Contractor may communicate through the **Design Professional**. Communications by and with the **Design Professional's** consultants shall be through the **Design Professional**, unless the **City** deems it necessary or expedient to speak directly to the consultants.

3.6.9. Applications and Certifications for Payment. Based on the **Design Professional's** observations of the Work and evaluations of the Contractor's applications for payment, the **Design Professional** shall review and certify the appropriate amounts due the Contractor within five (5) business days after receipt of the Contractor's application for payment, and such certifications shall be in the form requested by the **City**. The **Design Professional's** certification for payment shall constitute a representation to the **City** based on the **Design Professional's** observations at the site and on the data comprising the Contractor's application for payment that the Work has progressed to the point indicated and the quality of Work is in accordance with the Contract Documents. The foregoing representations are subject to minor deviations from the Contract Documents correctable prior to completion and to specific qualifications expressed by the **Design Professional**. The **Design Professional** is required to review and validate the certified payrolls. The **Design Professional** is required to reconcile the applications for payment with the certified payrolls. The issuance of a certificate for payment shall further constitute a representation that the Contractor is entitled to payment in the amount certified. Timely payment of Contractor is required by M.G.L. c. 30, §39K; therefore, the **Design Professional** shall establish office procedures assuring either immediate mail or messenger delivery of the approved applications for payment to the **City**. Notwithstanding the foregoing, the Mayor's Office of Strategic Planning and Community Development (SPCD) shall be responsible for monitoring and certifying construction payrolls for compliance with prevailing wage requirements (a) if the Contract is a federally funded contract subject to federal Davis Bacon and Related Acts; and/or (b) if SPCD is the Contracting Department.

3.6.10. Rejection of Work. The **Design Professional** shall have the responsibility, obligation, and authority to reject Work which (1) does not conform to the Contract Documents; or (2) the **Design Professional** believes to be defective; or (3) the **Design Professional** believes will not produce a completed Project that conforms to the Contract Documents or that will prejudice the integrity of the design concept of the completed Project as a functioning whole as indicated by the Contract Documents. The **Design Professional** shall promptly notify the **City** of such rejection. Whenever the **Design Professional** considers it necessary or advisable for implementation of the intent of the Contract Documents, the **Design Professional** will have the responsibility, obligation, and authority to require additional inspection or testing of the Work in accordance with the provisions of the Contract Documents, whether or not such Work is fabricated, installed, or completed; provided, however, the **Design Professional** must obtain the **City's** prior written approval of any such special inspection or testing. However, neither this authority of the **Design Professional** nor a decision made in good faith either to exercise or not to exercise such authority shall give rise to a duty or responsibility of the **Design Professional** to the Contractor, Subcontractors, Suppliers, other persons performing portions of the Work.

3.6.11. Submittals. The **Design Professional** shall review and approve or take other appropriate action upon the Contractor's submittals such as Proposed Change Orders, Shop Drawings, Product Data, and Samples, for the purpose of: (a) determining compliance with applicable laws, statutes, ordinances, codes, orders, rules, and regulations; and (b) determining whether the Work, when completed, will be in compliance with the requirements of the Contract Documents. The **Design Professional's** action shall be taken with such reasonable promptness as to cause no delay in the Work taking into account the time periods set forth in the latest schedule prepared by the Contractor and approved by the **Design Professional** and, in any event, such action shall be taken within fourteen (14) days after submittal to the **Design Professional**. The **Design Professional** shall indemnify the **City** for any monies paid by the **City** to the Contractor as a result of the **Design Professional's** delay in taking appropriate action, as described above, where such delay is not caused in any part by the **City**. Review of such submittals is not conducted for the purpose of determining the accuracy and completeness of other details such as dimensions and quantities or for substantiating instructions for installation or performance of equipment or systems designated by the Contractor, all of which remain the responsibility of the Contractor to the extent required by the Contract Documents. The **Design Professional's** review shall not constitute approval of safety precautions or, unless otherwise specifically stated by the **Design Professional**, of construction means, methods, techniques, sequences, or procedures. The **Design Professional's** approval of a specific item shall not indicate approval of an assembly of which the item is a component. When professional certification of performance characteristics of materials, systems, or equipment is required by the Contract Documents, the **Design Professional** shall be entitled to rely upon such certification to establish that the materials, systems, or equipment will meet the performance criteria required by the Contract Documents.

3.6.12. Change Orders and Work Change Directives. The **Design Professional** shall prepare Change Orders and Work Change Directives, with supporting documentation and data if deemed necessary by the **Design Professional** for the approval and execution in accordance with the Contract Documents, and may authorize minor changes in the Work not involving an adjustment in the Contract Sum or an extension of the Contract Time (which is the time in which the Work reaches final completion) and which are not inconsistent with the intent of the Contract Documents.

3.6.13. Interpretations, Clarifications, and Decisions of the Design Professional.

3.6.13.1. The **Design Professional** will interpret, clarify, and decide matters concerning performance under and requirements of the Contract Documents on written request of either the **City** or the Contractor. The **Design Professional's** response to such requests will be made with reasonable promptness and within the time set forth herein. Any such written interpretations, clarifications, or decisions shall be binding on the **City** and the Contractor. Interpretations, clarifications, and decisions of the **Design Professional** shall be consistent with the intent of and reasonably inferable from the Contract Documents and shall be in writing or in the form of drawings. The **Design Professional** may, as the **Design Professional** judges desirable, issue additional drawings or instructions indicating in greater detail the construction or design of the various parts of the Work; such drawings or instructions may be effected by a Field Order or other notice to the Contractor, provided such drawings or instructions are reasonably consistent with the previously existing Contract Documents. The **Design Professional** shall not be liable for results of interpretations, clarifications, and decisions so rendered in good faith and in the absence of negligence by the **Design Professional**.

3.6.13.2. Time Limit for Rendering Decisions. The **Design Professional** shall render written interpretations, clarifications, and decisions within a reasonable time, but in no event more than seven (7) days after receipt of same.

3.6.14. Aesthetic Effect. The **Design Professional's** decisions on matters relating to aesthetic effect must be consistent with the **City's**. The **Design Professional** shall advise the **City** in matters relating to aesthetic effect; however, the **City's** decision in these matters shall be final.

3.6.15. Claims.

3.6.15.1. Initial Referral. All Claims, the bases of which arise prior to final payment or the earlier termination of the Contract, shall be referred initially to the **Design Professional** for action as provided herein.

3.6.15.2. Time Period and Action. The **Design Professional** shall review Claims and shall do one of the following within seven (7) days of receipt of the Claim:

3.6.15.2.1. defer any action with respect to all or any part of a Claim for the purpose of requesting and receiving additional information from either party;

3.6.15.2.2. decline to render a decision for any reason which it deems appropriate (including, but not limited to, the fact that the Claim involves allegations of fault on the part of the **Design Professional**); or

3.6.15.2.3. render a decision on all or a part of the Claim.

If the **Design Professional** requests additional information, the **Design Professional** shall take action with respect to the Claim no later than seven (7) days after receipt of the additional information. The **Design Professional** shall notify the parties in writing of its disposition of such Claim. If the **Design Professional** decides that the Work relating to such Claim should proceed regardless of its disposition of such Claim, the **Design Professional** shall issue to the Contractor a written order to proceed.

3.6.15.3. Decisions.

3.6.15.3.1. Decisions by the City or the Design Professional. (*Reference: M.G.L. c. 30, §39P*). In every case in which this Contract requires the **City**, any official, or its **Design Professional** to make a decision on interpretation of the Specifications, approval of equipment, material or any other approval, or progress of the Work, the decision shall be made promptly and, in any event, no later than seven (7) days after the written submission for decision; but if such decision requires extended investigation and study, the **City**, the official, or the **Design Professional** shall, within seven (7) days after the receipt of the submission, give the party making the submission written notice of the reasons why the decision cannot be made within the seven-day period and the date by which the decision will be made.

3.6.15.4. Resolved Claims. If a Claim is resolved, the **Design Professional** shall obtain or prepare the appropriate documentation and provide the **City** and the Contractor with a copy of same.

3.6.16. Determination of Substantial and Final Completion. On behalf of the **City**, the **Design Professional** shall conduct inspections, determine the dates of Substantial Completion and final completion, and shall issue a certificate of Substantial Completion, with the prior written consent of the **City**. Such inspections shall include a reasonable number of Site visits by the **Design Professional** and the **Design Professional's** engineering consultants. The **Design Professional** shall provide to the **City** a written report of all findings with recommendations for appropriate action. The **Design Professional** will receive and review (and approve or disapprove, as the case may be) written guarantees, operating manuals, spare parts lists, value charts, and related documents required by the Contract Documents to be assembled by the Contractor. When the **Design Professional** is satisfied that all such documents are complete as required by the Contract Documents, the **Design Professional** shall issue a final certificate of payment.

3.6.17. Inspection Prior to End of Guarantee Period. Notwithstanding any other provision in this Agreement, at least thirty (30) days prior to the expiration of the Contractor's guarantee period, the **Design Professional** shall assist the **City** in inspecting the Project at the **City's** request and provide to the **City** a written report of all findings with recommendations for appropriate action. Such inspections shall include a reasonable number of Site visits by the **Design Professional** and the **Design Professional's** engineering consultants.

3.6.18. Certificate of Occupancy. The **Design Professional** shall be responsible for satisfying any and all requirements with respect to services of a Design Professional necessary to obtain a permanent certificate of occupancy under the Commonwealth of Massachusetts State Building Code.

3.6.19. Limitation on the Design Professional's Responsibilities.

3.6.19.1. Neither the **Design Professional's** authority to act under the provisions of the Contract Documents nor any decision made by the **Design Professional** in good faith to exercise or not to exercise such authority shall give rise to any duty or responsibility of the **Design Professional** to the Contractor, any Subcontractor, any Supplier, any surety for any of them, or any other person. The **Design Professional** will not have control over or charge of and will not be responsible for construction means, methods, techniques, sequences, or procedures, or for safety precautions and programs in connection with the Work, since these are solely the Contractor's responsibility as provided in Article 5 of the General Terms and Conditions. The **Design Professional** will not be responsible for the Contractor's failure to carry out the Work in accordance with the Contract Documents. The **Design Professional** will not have control over or charge of and will not be responsible for acts or omissions of the Contractor, Subcontractors, Suppliers, or of any other persons performing portions of the Work.

ARTICLE 4

DESIGN PROFESSIONAL'S ADDITIONAL SERVICES

4.1. IN GENERAL. The services described hereunder shall be paid for by the **City** in addition to the compensation for Basic Services. Prior to performing any service which the **Design Professional** claims to be an Additional Service, the **Design Professional** shall notify the **City** in writing that the service is an Additional Service, and shall provide with such notice an estimate of the additional compensation which will be payable to the **Design Professional** for performing such service. Such service shall not be performed, nor shall such estimate be exceeded, without the **City's** prior written approval. Failure to so notify the **City** and obtain the **City's** written approval shall constitute a waiver of the **Design Professional's** claim for additional compensation on account of such services. These services shall be provided only if authorized or confirmed in writing by the **City**. Notwithstanding anything to the contrary in this Agreement, the **City** shall not be responsible to pay and the **Design Professional** shall not be entitled to receive compensation for any additional service if such service was required due to the fault of the **Design Professional** or the **Design Professional's** failure to perform in accordance with the terms of this Agreement. Neither the **Design Professional** nor its consultants shall be compensated for any services involved in preparing changes that are required for additional Work that should have been anticipated by the **Design Professional** in the preparation of the Construction Documents, as reasonably determined by the **City**.

4.2. LIST OF ADDITIONAL SERVICES. The following list of Additional Services is intended to be illustrative and not considered all inclusive.

4.2.1. Making major revisions in Plans, Specifications, or other documents when such major revisions are:

4.2.1.1. inconsistent with approvals or instructions previously given by the **City**, including revisions made necessary by adjustments in the **City's** program or project budget;

4.2.1.2. required by the enactment or revision of codes, laws, or regulations subsequent to the preparation of such documents; or

4.2.1.3. due to changes required as a result of the **City's** failure to render decisions in a timely manner and where such failure is in no way caused by the **Design Professional**.

4.2.2. Providing services required because of major changes in the Project instigated by the **City**.

4.2.3. Undertaking material design work requested by the **City** in connection with Change Orders, Construction Change Directives, and the Contractor's value engineering proposals, provided that evaluation and judgments of the proposed changes and value engineering substitutions shall be provided as a Basic Service.

4.2.4. Providing consultation concerning replacement of Work damaged by fire or other cause during construction, and furnishing services required in connection with the replacement of such Work; provided, however, that such services are not required as a result of the negligence of the **Design Professional**.

4.2.5. Providing any other services not otherwise included in this Agreement.

ARTICLE 5

6.2. BUDGET. The **City** shall consult with the **Design Professional** in order to establish and update an overall budget for the Project, including the Construction Cost, the **City's** other costs and reasonable contingencies related to all of these costs.

6.3. AUTHORIZED REPRESENTATIVE The **City** shall designate a representative authorized to act on the **City's** behalf with respect to the Project. The **City** or such authorized representative shall render decisions in a timely manner pertaining to documents submitted by the **Design Professional** in order to avoid unreasonable delay in the orderly and sequential progress of the **Design Professional's** services.

6.4. CONSULTANTS. The **City** shall furnish the services of consultants not listed in the advertisement for the Request for Proposals when the **City** deems such services to be necessary.

6.5. FURNISHING INFORMATION OR SERVICES. Notwithstanding anything to the contrary written herein, the **City** shall only furnish information or services described in herein to the extent that any such information or service is reasonably required by the **Design Professional** to perform its services under this Agreement. The **Design Professional** shall review and confirm the sufficiency of any test and information furnished to the **Design Professional** by or on behalf of the **City** pursuant to this section.

6.6. NOTICE OF FAULT OR DEFECT. The **City** shall give prompt written notice to the **Design Professional**, if the **City** becomes aware of any fault or defect in the Project or nonconformance with the Contract Documents.

The **City** shall be permitted to retain copies, including reproducible copies, of the **Design Professional's** Plans, Specifications, and other documents for information and reference in connection with the **City's** use and occupancy of the Project. The **Design Professional's** Plans, Specifications, or other documents shall not be used by the **City** or others on other projects, except by agreement in writing. However, it is expressly understood and agreed that the **City** shall have the right to utilize the Plans, Specifications, and other documents in the event the **City** expands the Project, corrects any deficiencies, or makes any renovations or repairs to the Project.
